Dear Industrial Partner,

The 9<sup>th</sup> International Conference devoted to **New Developments in Photodetection** (NDIP) will be held from **June 8<sup>th</sup> to June 12<sup>th</sup> 2020 in Troyes, France (<http://ndip2020.event-vert.com/>)**.

The conference explores the latest developments in **Photodetection techniques and systems for High Energy Physics, Astrophysics, Medical and Industrial applications**. The program includes detector issues (e.g. PMTs, solid state detectors, hybrid photodetectors, new sensing media, etc.) and system aspects (e.g. pixel arrays, front-end electronics, signal/image processing, etc.).

The Conference provides a forum for the establishment and maintenance of contacts with some 200 physicists, engineers and decision makers from more than **20 countries**.

The Conference will take place in the **Aube Conference Center**. It integrates facilities for the industrial program in an exhibition area. Coffee breaks will be held within the exhibition area to maximize the interaction with participants. **Exhibitors will have the opportunity to give commercial presentation during dedicated periods**.

On behalf of the Organizing Committee, we invite you to participate actively to the success of this Conference. This handbook gives you first information related to the organization of the NDIP 2020 Conference and ways to support the Conference: **stand rental, sponsorship and advertisement**. If you are interested by supporting the conference, could you please inform us by email return (Ms Puill, M. Carrel or M. Charles, contacts indicated just below).

Please, do not hesitate to contact us for more details:

At only 1:30 from Paris and less than 4:00 from Lyon, Geneva and Brussels, Aube is an easy accessible destination, which offers unexpected surprises and discoveries.

Its main city, Troyes, detains an exceptional heritage, in particular its numerous timberhouses that marks its identity, or its churches, in which are spread 9,000m<sup>2</sup> of classified stain-glasses, which makes Aube the capital of stained glass.

Nowadays, the destination is investing in the future and has recently inaugurated its conference centre that is at the forefront of technological development.

Located in Champagne region, Aube shows many passionate producers. Its kilometres of grape-wines and green-lands and its great lakes offer it a unique landscape.

Aube is a responsible destination that is located at the crosspoint of prestige, authenticity, unexpectedness and technology, so that your meetings are a complete surprise.

## The Aube Convention Center

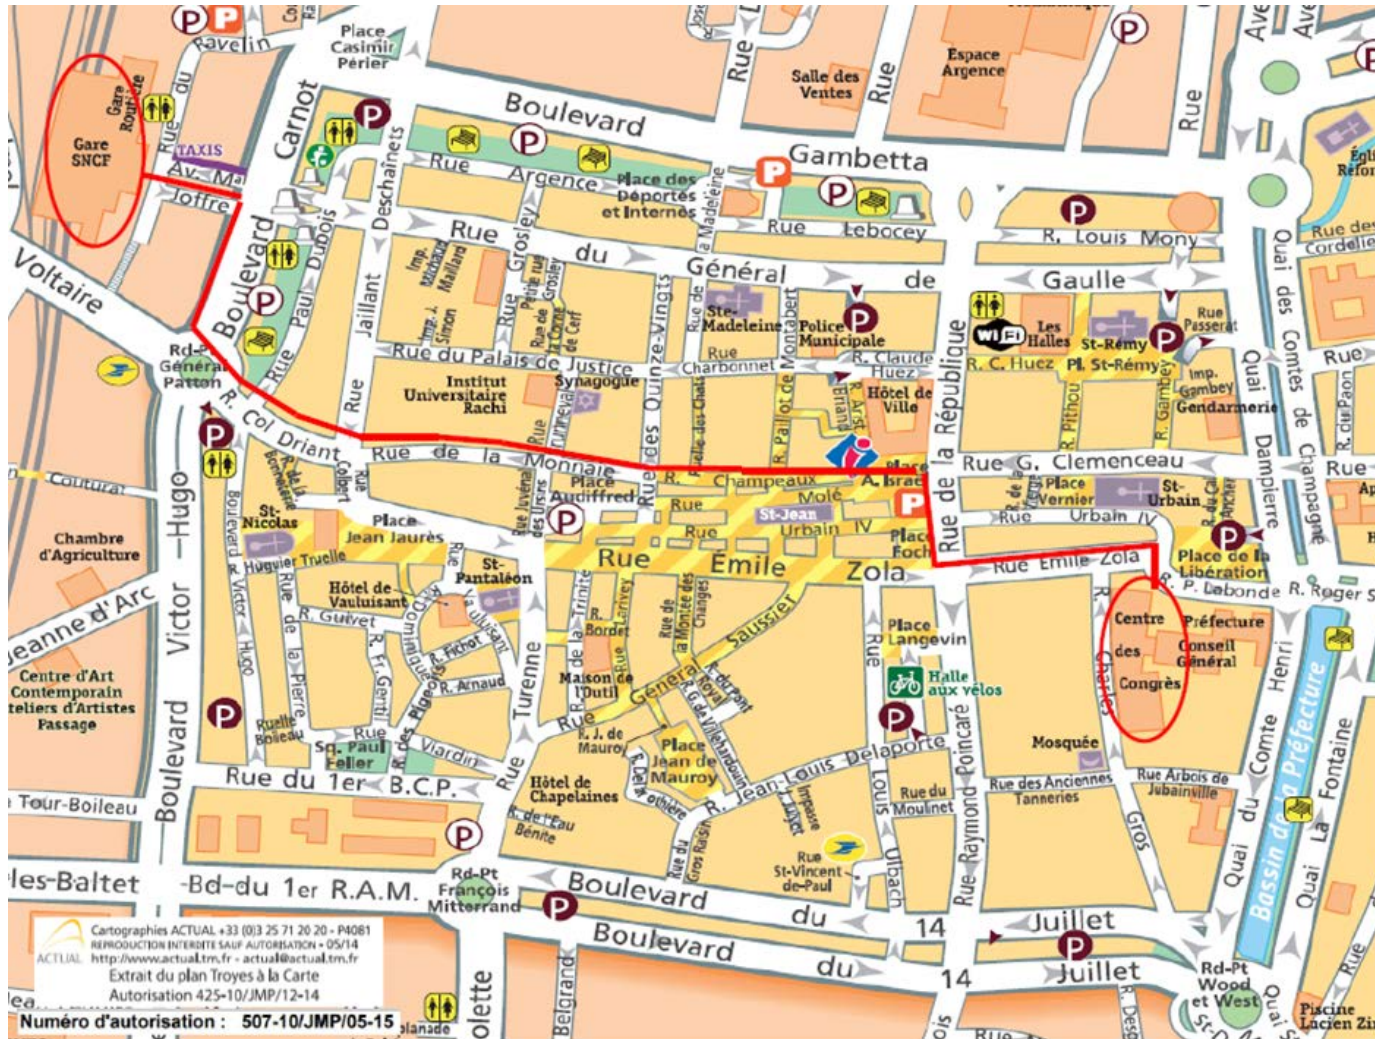

The Aube Convention Center is placed in the center of Troyes, 10-minute walk from the train station.

If you want to arrange such a booth with several companies, please contact us.

## SUMMARY OF THE PROPOSAL

**stand as ordered (3 persons maximum)**

**Conference talks attending**

renting a booth gives you  
these benefits

**your company logo and a link to your Web site on the NDIP20 Web page (as soon as you confirm your participation)**

**10 mn talk for commercial presentation during dedicated sessions**

**Coffee breaks welcome aperitif**

## **Catering, lunch, conference dinner, social events**

During the conference, participants have lunch and coffee breaks together at the conference site. Moreover, the conference organises some social events (e.g. welcome aperitif, visits, conference dinner ...). Exhibitors have the possibility to join the conference attendees to these events.

Therefore the industrial attendees' partners are invited to join the welcome aperitif and to all coffee breaks (coffee breaks are in the exhibition hall).

For the Conference dinner and all lunches, we offer the possibility:

- to reserve and pay at unity (25 € per lunch, 100 € for the Conference Dinner, 40 € for the visit)
- or to buy a global service called “social event kit” (240 €: 4 lunches + conference dinner + visit)

In any case, the number of meals must be anticipated and reserved at least one month before the conference starts (1<sup>st</sup> of May).

Please fill the table following the order form.
